get comply

You can't get **Privacy** without
Security

stay Comply

A Leader for Enterprise Data Loss Prevention

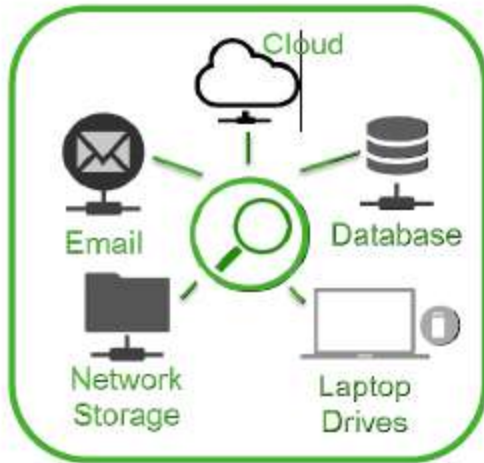

Forcepoint has been recognized as a Leader in Gartner Magic Quadrant for Enterprise Data Loss Prevention for the **9th** consecutive time with the latest Quadrant published.

Personal Data Protection Act in Thailand

- สำหรับกฎหมายคุ้มครองข้อมูลส่วนบุคคล เป็นผลมาจากการเปลี่ยนผ่านเข้าสู่ดิจิทัล ซึ่งส่งผลให้มีการล่วงละเมิดสิทธิในข้อมูลส่วนบุคคลเพิ่มมากขึ้น จึงทำให้ภาครัฐต้องมีการคุ้มครองความเป็นส่วนตัวของประชากรในประเทศ ซึ่งถือเป็นส่วนหนึ่งของการรักษาความปลอดภัยของข้อมูล (**Data Security**) ครอบคลุมข้อมูลส่วนบุคคลประเภทต่างๆ ตั้งแต่ ชื่อ นามสกุล ที่อยู่ เบอร์โทรศัพท์ อีเมลล์ หมายเลขบัตรประจำตัวประชาชน และอื่นๆ
- นอกจากนี้ กฎหมายยังคุ้มครองไปถึงข้อมูลส่วนบุคคลที่มีความอ่อนไหว (**Sensitive Data**) เช่น เชื้อชาติ เผ่าพันธุ์ ความเห็นทางการเมือง ความเชื่อ ลัทธิ ศาสนา พฤติกรรมทางเพศ ประวัติอาชญากรรม ข้อมูลทางด้านสุขภาพ ข้อมูลทางพันธุกรรมและข้อมูลชีวภาพ

Data Protection How ForcePoint Can Help

INVENTORY DATA

DLP: Discover, Cloud, Endpoint

MAP, MANAGE & CONTROL DATA FLOWS

Who	What	Where	How	Action
Human Resources	Source Code	Evernote	File Transfer	Confirm
Customer Service	Credit Card Data	Dropbox	Web	Block
Marketing	Personal Data	Business Partner	Instant Messaging	Notify
Finance	M&A Plans	Facebook	Peer-to-Peer	Remove
Accounting	Employee Salary	OneDrive	Email	Encrypt
Sales / Marketing	Financial Report	Malicious Server	Print	Quarantine
Legal	Customer Records	Removable Media	File Copy	Confirm
Technical Support	Manufacturing Docs	Competitor	Print Screen	Audit
Engineering	Research	Customer	Copy/Paste	Notify

DLP: Gateway, Endpoint Web & Email Security modules

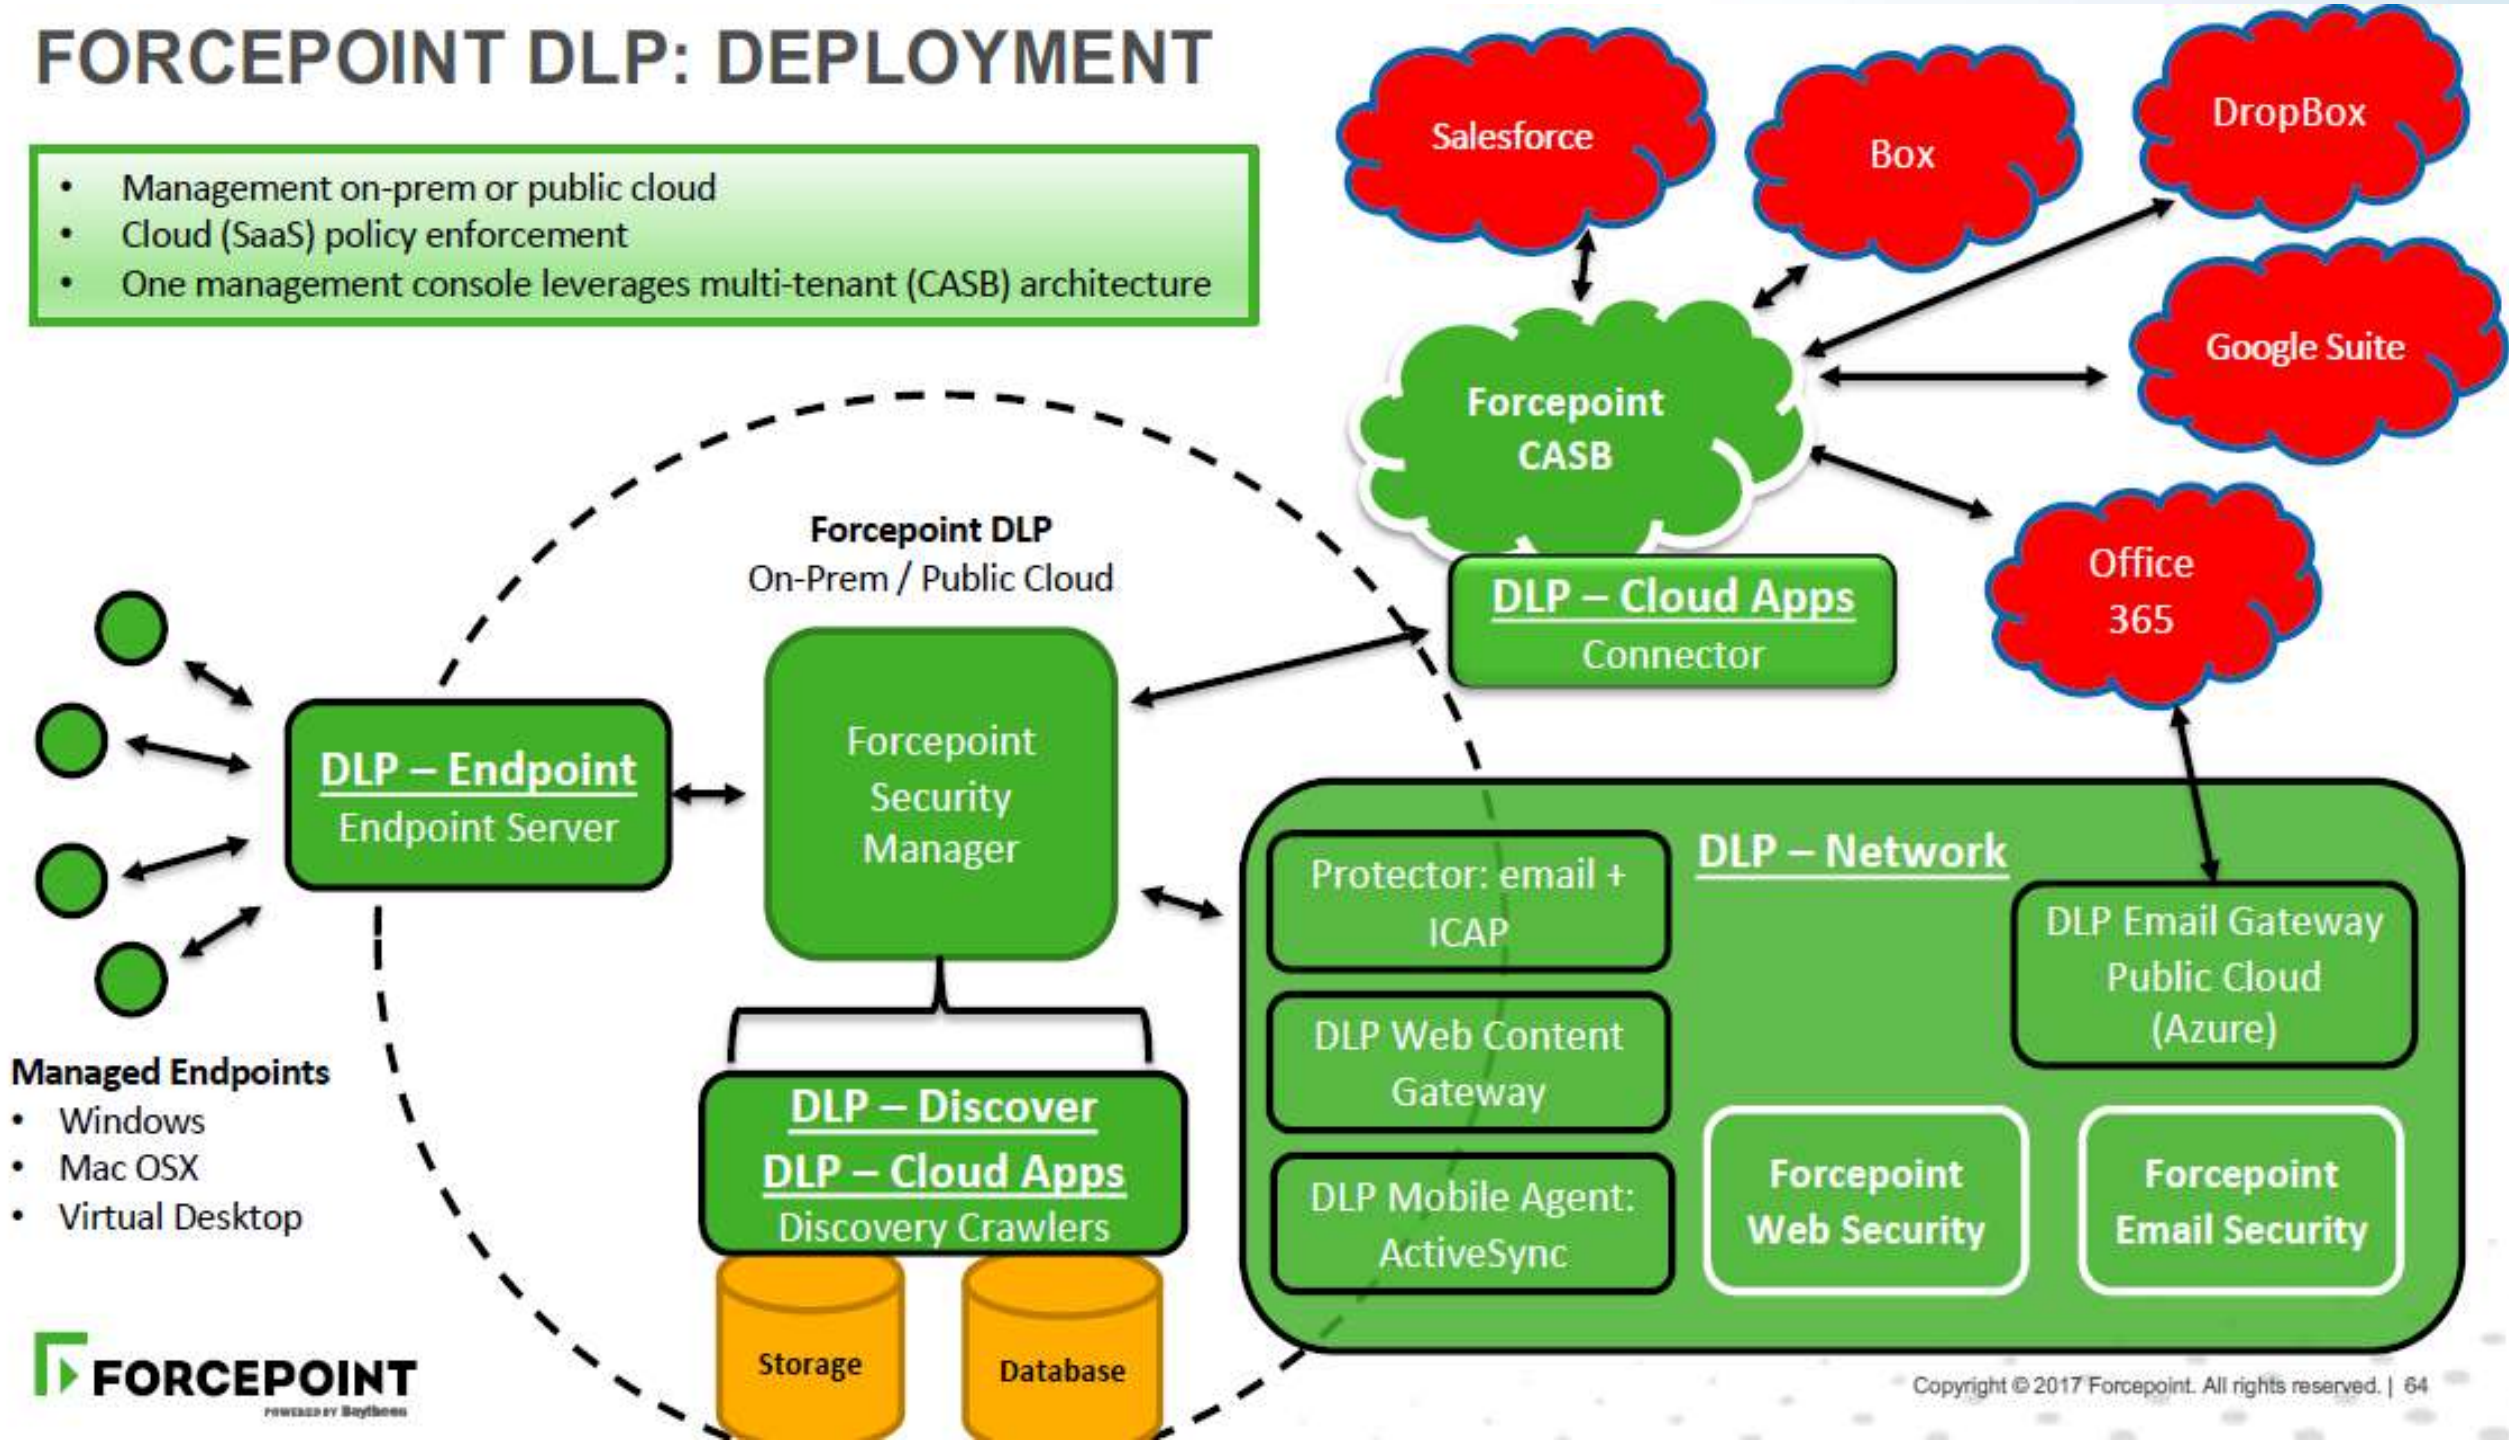

PREPARE TO RESPOND IN A TIMELY MANNER

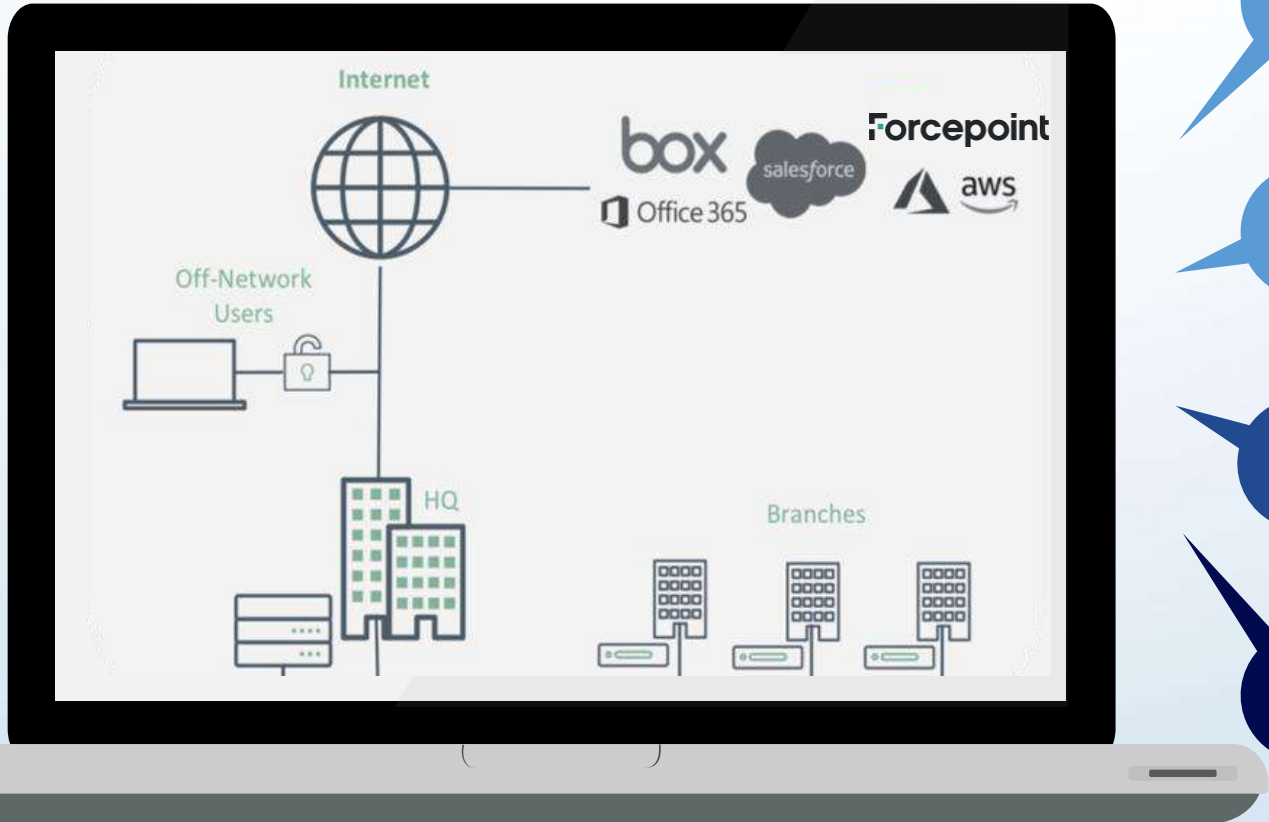

Security Manager & Insider Threat Command Center

FORCEPOINT DLP: DEPLOYMENT

- Management on-prem or public cloud
- Cloud (SaaS) policy enforcement
- One management console leverages multi-tenant (CASB) architecture

Old Architecture Hinders Digital Transformation

Backhauling traffic using costly MPLS links with no scalability

Recreating **expensive** security stacks at each location doesn't scale

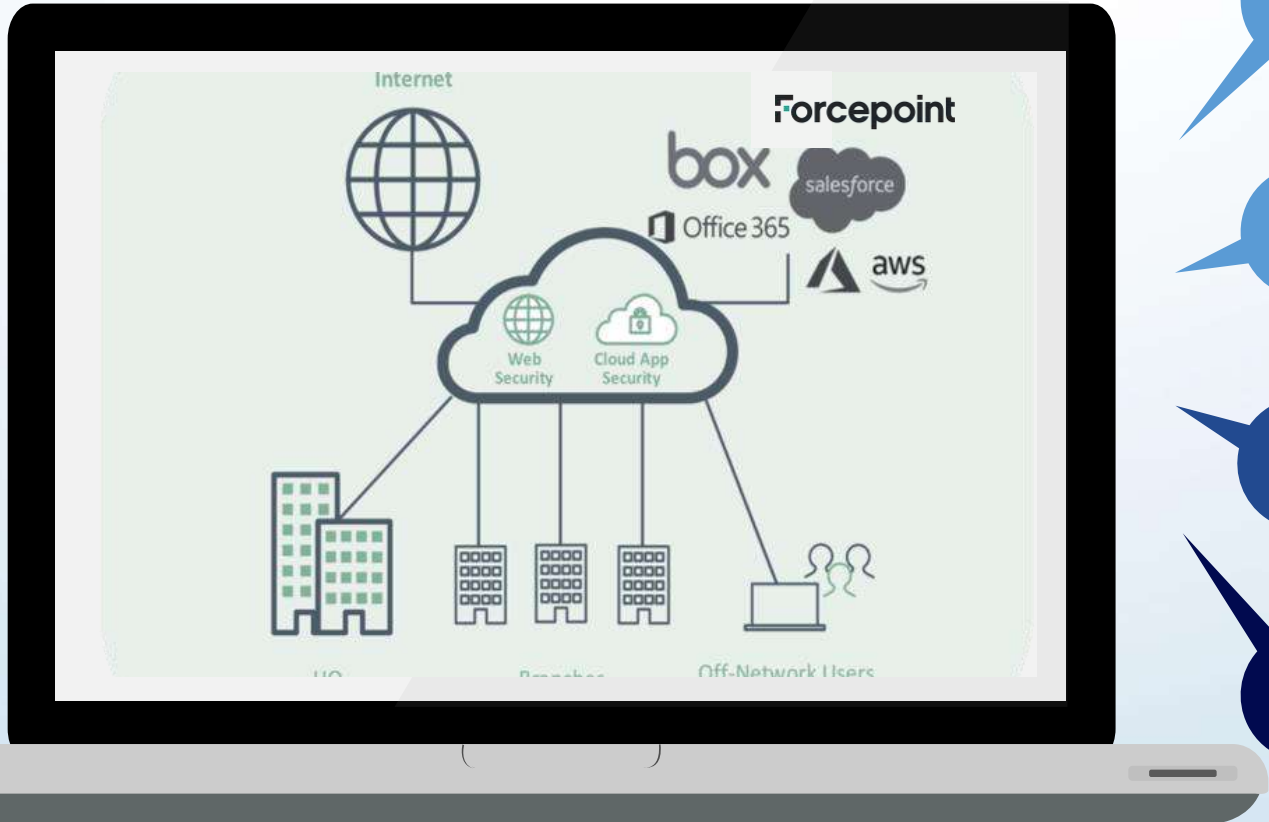

Appliance **maintenance** and **time-consuming** upgrades

Security **gaps** for roaming workforce

Simple infrastructure enable digital transformation

- ✓ Local internet breakouts for **direct-to-cloud** connectivity
- ✓ **Extend security** to branches, offices and retail locations.
- ✓ **Zero** appliance footprint and no upgrades to worry about
- ✓ Security and connectivity for **roaming workforce**

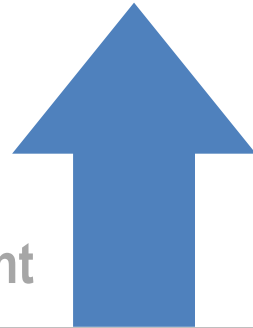

**Pacific
Internet**

Enterprise SD-WAN

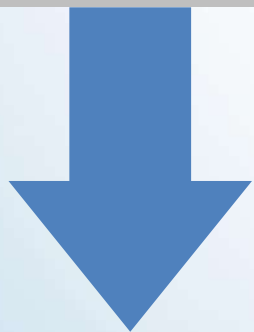

70%

Faster Deployment

38%

Fewer Outages

Source: IDC Research

Forcepoint Builds on Gartner's Definition of SD-WAN

Gartner

Forcepoint

Replace WAN routers

▶ Integrate WAN router + NGFW

Support multiple WAN connections

- ▶ Mix transports & ISPs for each site
- ▶ Optimize apps' use of links & bandwidth

Simplify WAN management,
configuration and orchestration

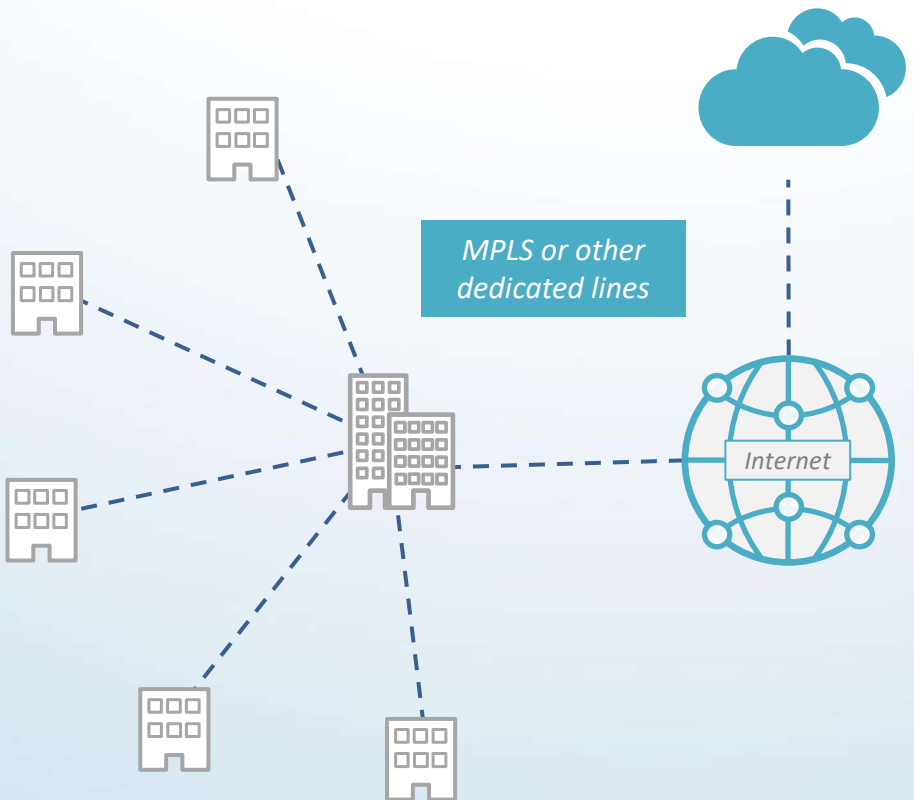

- ▶ Unify policies for connectivity + security
- ▶ Manage >1500 sites in one console

Provide secure VPNs,
integrate additional network services

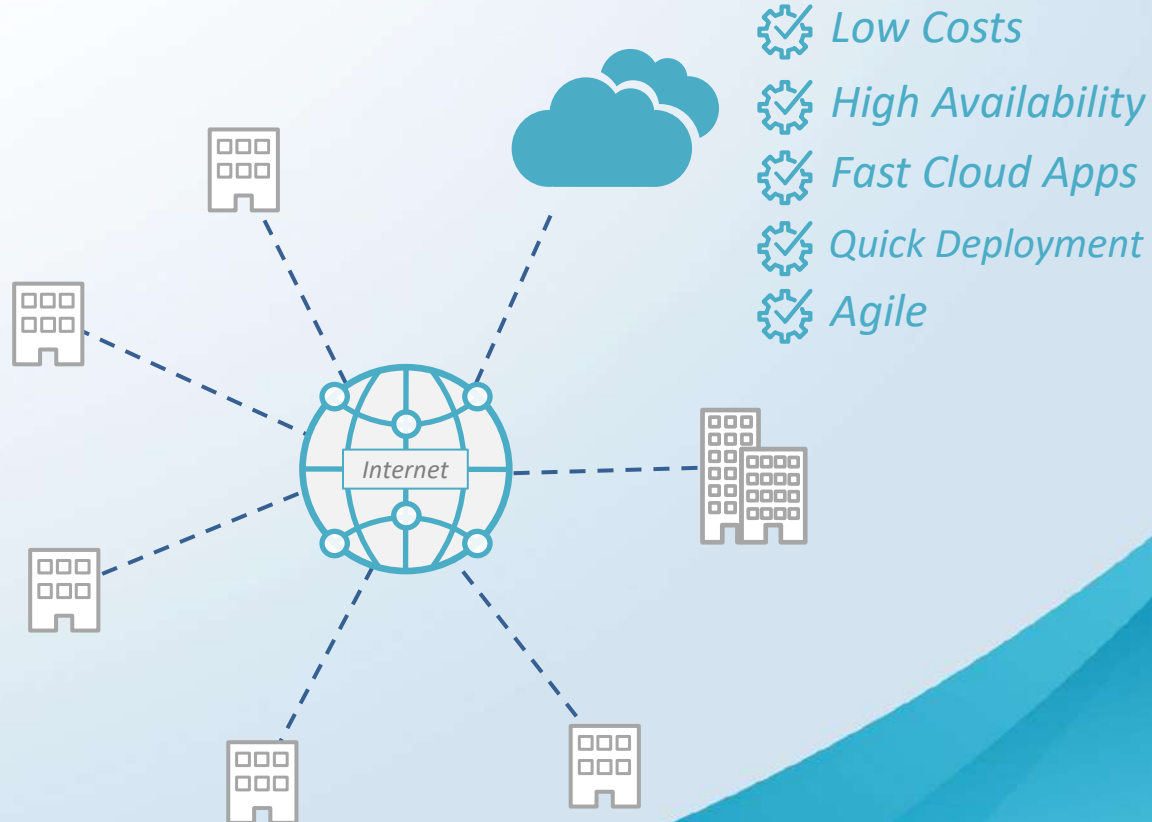

- ▶ Automate VPN setup with site drag-and-drop
- ▶ Service-chain Web Security + CASB in cloud

SD-WAN Offers a Better Way

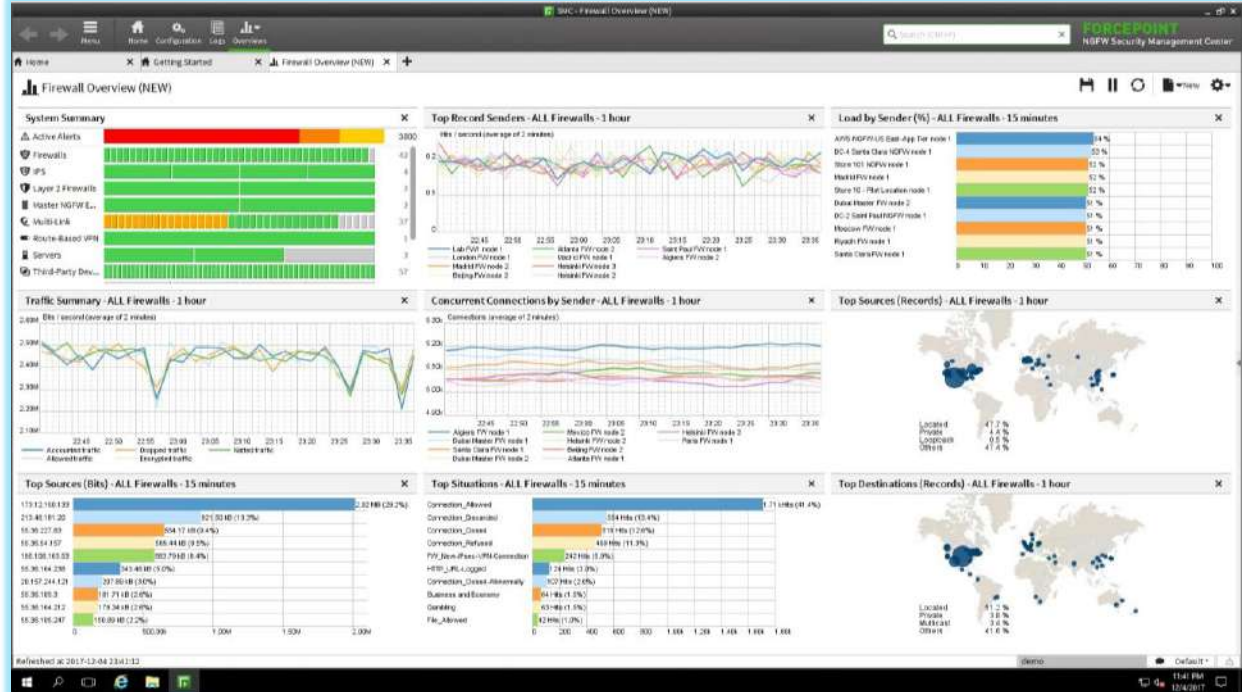

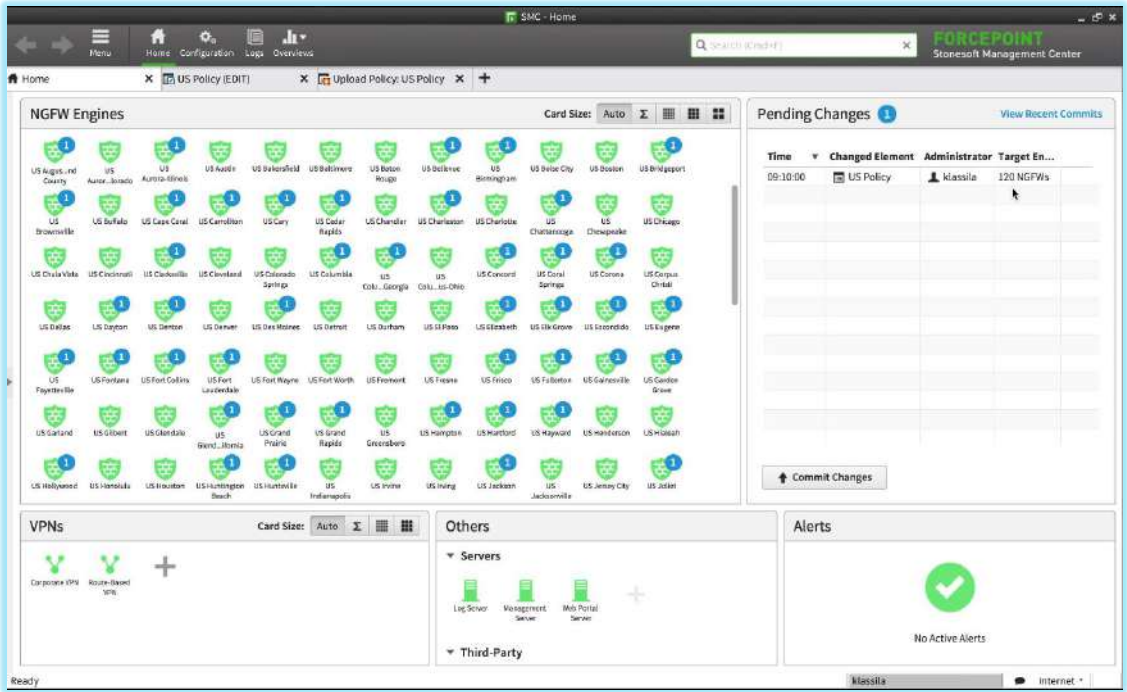

Traditional "Hub-and-Spoke"

SD-WAN Direct-to-Cloud

Enterprise Manageability

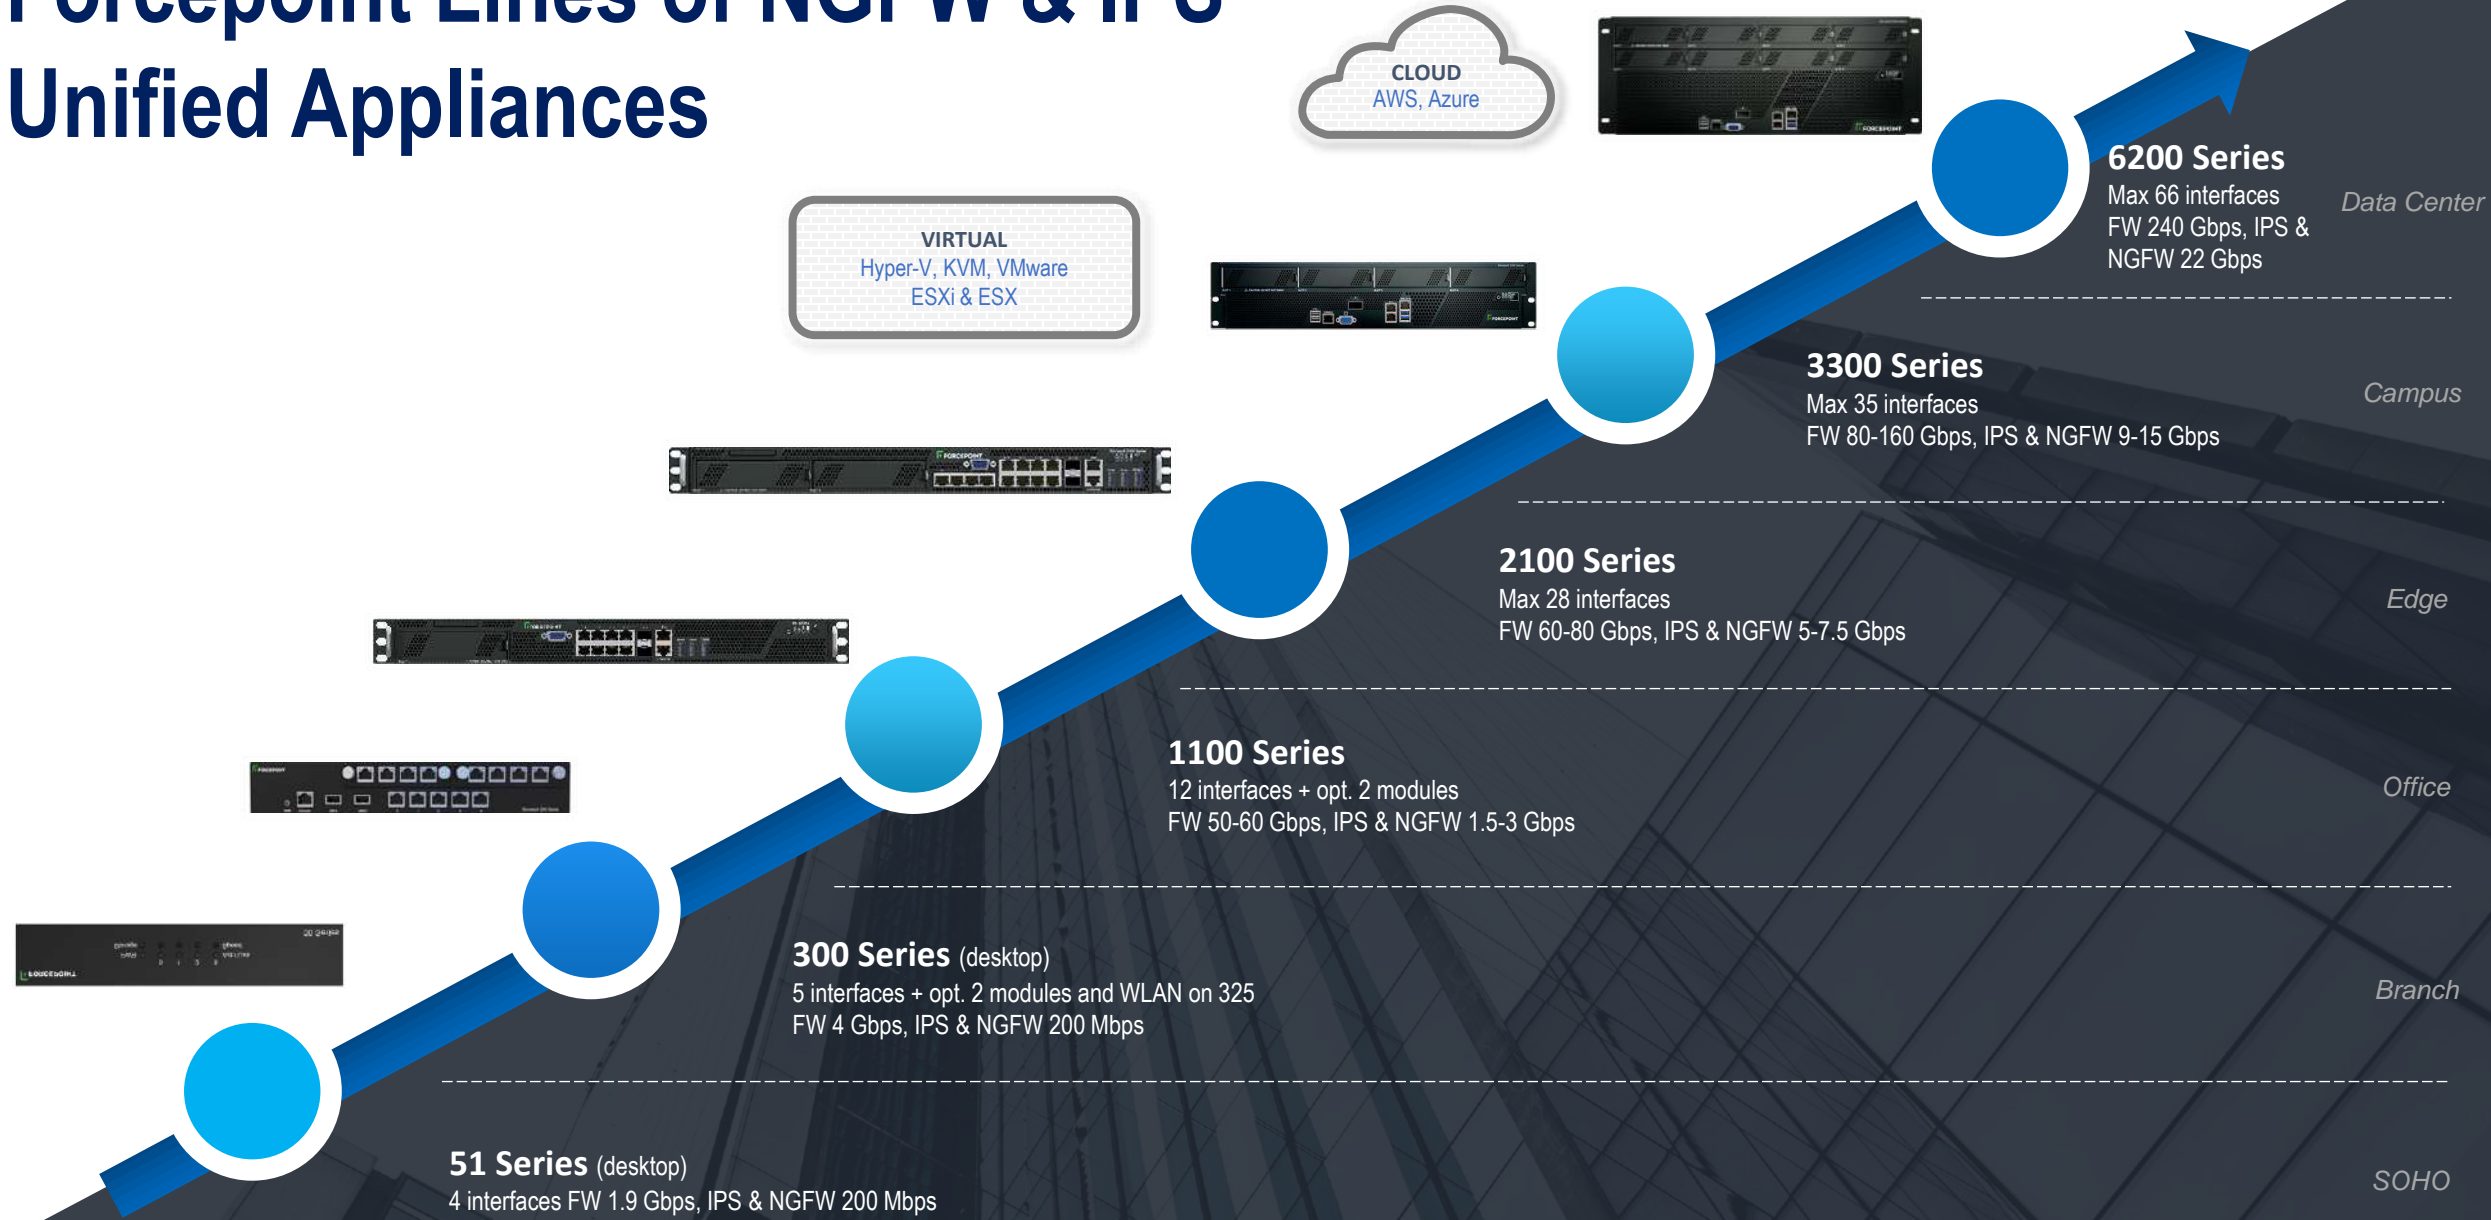

The screenshot shows the 'US Policy (EDIT)' configuration page. It includes a table of rules with columns for ID, source, destination, service, action, rule name, authentication, and time.

ID	source	destination	service	action	rule name	authentication	log	time
1.1	SS Interface ID 0.net	02 ANY	Updates	Allow	Allow application updates / @2097206.2			
5.2	SS Interface ID 0.net	02 ANY	Microsoft-Sharepoint	Allow	Allow business applications / @2097207.12			

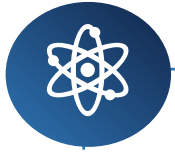

Manage Branches • Edge • Data Centers • Cloud from one console
See what's happening everywhere & interactively drill down
Turn sophisticated business processes into automated policies
Update hundreds of locations in minutes, not hours

Forcepoint Lines of NGFW & IPS Unified Appliances

Service Level Agreement (SLA)

Tier 3 : Corrective and Preventive

- Problem Monitoring
- Incident Problem
- Onsite Support
- Summarize Incident to customer (Monthly Report)

Tier 2 : Problem Analysis

- Trouble Shooting
- Problem Monitoring
- Remote Configuration
- Incident Management

Tier 1 : Network Monitoring 24x7

- Hotline number 24x7 : 02-081-8888
- Email : noc.th@pacificinternet.com
- Ticket Problem / Summary Ticket
